UNIVERSITY OF OMAHA

OMAHA, NEBRASKA, FRIDAY, APRIL 30, 1965

No. 27

## Series To Close With Kintner Talk

Dr. William Kintner, professor of International Relations at the University of Pennsylvania's distinguished Wharton School, will be the speaker at the final American Heritage Series lecture May 6.

Dr. Kintner's topic will be the "Military in Determination of National Policy."

He is a West Point graduate with distinguished careers in the Army and government, as well as a scholar and writer.

During the Eisenhower administration, Kintner was a special assistant to the President, and was a member of the National Security Council's planning staff.

His writings include eight books in the field of international affairs and policy determination.

## Future Teachers Meet

All persons who are planning to student teach in the secondary schools next fall are required to attend a meeting May 3 at 3:30 p.m. in room 389 of the Administration Building.

## OU In 'Project Head Start' For 240 Deprived Children

By Mary Concannon

Dr. Hollie Bethel, head of department of elementary education and Mrs. Doris Tabor, assistant professor in the department went to the University of Maryland during the week of April 11 for a conference for the professional staff from the universities participating in "Project Head Start."

Head Start is an eight-week program to be conducted in the United States this summer for culturally deprived preschool children. The project will help 240 thousand children throughout the country by providing them with the background they need in order to learn in school.

### 240 Participants

The Omaha project will be conducted in a nursery school type of set-up. Approximately 240 Omaha children will have complete physical examinations, tours of businesses and the zoo and other cultural experiences. The children will be provided with daily lunches.

Omaha University will offer two one-week orientation sessions for the personnel involved in the project. One session begins May 31, the other, June 7. Each session will be composed of 25 professional people from the public schools. These people were assigned to OU by the Office of Educational Opportunity headed by R. Sargent Shriver.

### Administration

The sessions will last daily from 12:30 p.m. to 6:30 p.m. The workshops will be staffed by a medical doctor, a social worker, a sociologist, a psychologist, a school nurse, an elementary school principal and

## Future Committee Sub Groups Set

The infant Committee of the Future at the University of Omaha took its first step toward maturity last Friday.

The committee, composed of 20 faculty members from OU's colleges, split into five sub-committees to look at various phases of the University.

The sub-committees will probe and report back to the main committee, headed by Dean of Administration Kirk Naylor, on such areas as the role and organization of the university, the faculty, the university curriculum, the student body and resources.

The sub-committees are chaired by Paul V. Peterson, head of the department of journalism; Willis P. Rokes, head of the department of insurance; Paul L. Beck, associate professor of history; Robert L. Ackerman, assistant professor of elementary education and Philip H. Vogt, associate professor of sociology.

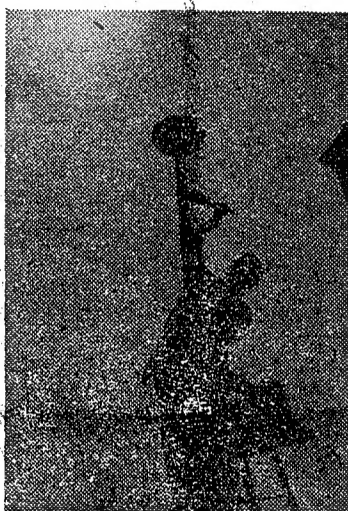

Each committee will explore their individual areas on a whole and report back on May 7.

## ATTENTION STUDENTS

The faculty Future Committee invites all interested students to an open forum, Wednesday, May 5 from 2 to 4 in the afternoon in the Gene Eppley Conference Center Auditorium.

The forum will give students the opportunity to air their feelings on the future of OU.

Today is the last day students may borrow up to five dollars from the Alumni Association's emergency loan fund. Students should be reminded that all loans are due one month after being received.

The Gateway's roving camera caught this unusual silhouette of a physical plant employee re-painting a light pole in front of the Applied Arts Building Wednesday afternoon.

## Traywick At Hearing Affecting OU's Future

By Leo Meidlinger

President Leland Traywick and five Omaha University deans traveled to Lincoln Tuesday afternoon to attend a legislative hearing on a proposed bill—LB 251—that could have considerable effect on OU's future as a municipal university.

The bill, in essence, would "prohibit state aid to junior colleges or municipal universities unless the voters of the district where the school is situated have voted to become subject to the control of the University of Nebraska's Board of Regents or a subsequent body," according to Traywick.

dential reins at OU, but added if the school did have to eventually join the state higher education system it would be only under the condition that "Omaha University could keep and be governed by its own board of regents."

The bill was introduced by State Senator Marvin Stromer of Lincoln.

Accompanying Dr. Traywick on the fact-finding excursion were Deans Frank Gorman, Carl Helmstadter, Kirk Naylor and George Rachford.

## OU's Budget Work Report On Schedule

Budget work for Omaha University's 1966 fiscal year is reported on schedule this week by President Leland Traywick.

Traywick said there have been no "crises or hitches" in preparing the preliminary budget report. The report will be submitted to the Board of Regents Finance Committee May 8.

It will then be reviewed by the board on May 13, before being submitted for final approval or modification to the Regents May 20th meeting.

Traywick indicated the bill, if passed, would counteract a previous bill which is still in the legislative hopper that would provide 150

Traywick dollars for each student in the junior college and the same amount of money to OU for each student at the freshman and sophomore level.

Dr. Traywick noted that he doesn't want OU to join the state system, repeating one of the first comments he made when he took over the presi-

## Injury Stymies Moray's Game

Donald Moray, Omaha University halfback last fall, is listed in satisfactory condition at Immanuel Hospital today after a two-car collision at Fortieth and Pinkney early Sunday morning which took the life of Kathryn Exceen, a Central High graduate and former Omaha University student. Two other OU students were less seriously injured.

Ronald Milano, a sophomore from Booton, N. J., was released from a local hospital with cuts around his eye. Alfred Fiumano, Jr., a bootstrapper, suffered a broken jaw in two places and is in the Offutt Air Base hospital in satisfactory condition.

Moray, a sophomore from Ann Arbor, Michigan, suffered two broken legs and lacerations on his head. His doctor, Dr. Stanley Bach, said he is "doing fine." He'll be a long time getting well but he's in good shape, the physician added.

As far as football goes, Moray definitely won't be able to play next fall, according to Dr. Bach. "It's too soon to tell but we have high hopes" for ball in the future, the doctor added.

Moray's left leg is in traction and his right leg was broken below the hip. An operation was performed on his right leg Wednesday at which time a metal plate was inserted.

He was enrolled in University Studies but has dropped all his classes. He plans to return to Ann Arbor as soon as possible. His parents flew in to Omaha Monday.

## Pinter Plays End Sat.

Students still have a chance to see the Pinter Plays tonight and tomorrow under the direction of Dr. Edwin Clark.

The two avant garde plays, "The Dumb Waiter", and "The Room" will be presented at 8:30 in the auditorium on both nights.

All seats for the plays are reserved. Tickets are available in the game room of the Milo Bail Student Center, and may be obtained with an activity card. Tickets for non students are \$1.50.

## Equipment For Radio-TV Dept.

Omaha University radio and television department received two new video tape recorders this week.

According to department head Paul Borge the machines will be put into use within a couple of weeks after department engineers have had time to familiarize themselves with the new equipment.

Borge said the new machines will be used both for closed circuit telecasts and TV Classroom, presented Saturday mornings on KMTV.

## Band Concert Set For Tues.

Dr. Leland Traywick's first President's Band Concert will be given Tuesday evening, May 4 at 8 o'clock in the Milo Bail Student Center Ballroom.

The concert, presented annually, will feature some of the president's Broadway musical favorites.

Jack Malik, assistant professor of music, will direct the concert.

## COMING

FINAL EXAMINATION SCHEDULE Second Semester 1964-65		
Date	Classes meeting at the following hours	Examination hours
Thursday, May 27	Eng 109, 111, and 112 Bus 319 and 320 9:30 M W F or all days 9:30 T Th	7:30 - 9:30 a.m. 9:45 - 11:45 a.m. 12:30 - 2:30 p.m. 2:45 - 4:45 p.m.
Friday, May 28	7:30 M W F or all days 7:30 T Th 8:30 T Th Bus 128	7:30 - 9:30 a.m. 9:45 - 11:45 a.m. 12:30 - 2:30 p.m. 2:45 - 4:45 p.m.
NOTE: Because MONDAY, May 31, is a legal holiday all late afternoon and evening CAE classes meeting on Monday will hold their final examinations at their regularly scheduled class meeting times on Friday, May 28. They will use their regularly assigned class rooms with the following exceptions only: Chem. 102a, Elem. Organic Chemistry, will hold the final examination in Adm. Rm. 438 Hist. 355a, Renaissance and Reformation, will hold the final examination in The Century Room, Conference Center Geography 531aG, Geography of Agriculture, will hold the final examination in The Marine Room, Conference Center		
Saturday, May 29	1:30 M W F or all days All Saturday Morning CAE classes Psych 101	7:30 - 9:30 a.m. 9:45 - 11:45 a.m. 12:30 - 2:30 p.m.

Thomas A. Mote (left) explains the functioning of his proposed device to Mr. John G. McMillan head of the OU Physics Department.

## OU Student Develops Plan For More Accurate Timing

By Ivan Worrell

A method to make computation of time fifty times more accurate has been developed by an Omaha University student.

Thomas A. Mote, a retired Air Force major, has developed detailed plans for a digital clock and photo-multiplier that will make the measurement of occultation (eclipse of a star by the moon) fifty times more accurate than the manual method now used.

The device as diagramed by him would employ a telescope, focused on a star, with a photo-multiplier receiving the light from the star. The light is then converted to electrical energy. The energy created by the light from the star would be used to keep a digital clock running.

When the side of the moon with earth's shadow on it obscures the star the digital clock will stop. This will record a very accurate time of the occultation. Cost for building this device is calculated by Mote as between two and three thousand dollars.

He has also developed plans for a similar device that will halt a stop watch. The cost for it would be about fifty dollars making it practical for amateur astronomers. It would be twice

as efficient as the present method of manually stopping a watch.

Mr. John G. McMillan, head of the OU physics department, said the plans that Mote has presented are more important than most student contributions, because they pertain to a needed workable device. He said the work done by Mote "has potential value in sharpening up our astronomical time base."

Mote said the most expensive version of his measuring device would be practical for colleges and other institutions that have observatories while the less expensive version that works with a stop watch would be more suitable for amateur astronomers.

The value of measuring time by occultation lies in the value of the reported observations to the Royal Greenwich Observatory which uses all observations sent by amateur astronomers to statically correct the time base for use by the world clock.

Mote, who is a ham radio operator and has been interested in astronomy for the last few years, will graduate in August. After finishing his studies at OU he plans to be a teacher preferably in a technical school.

## Down With Pedestal Seats!

Dear Editor,

I don't know how many of you are familiar with the pedestal-type seats, but they can be found, for example in Room 259 of the Applied Arts Buildings. They are a series of light-colored, contour-type seats that are physically connected to one another by means of a long bar located at the base of the seat. The seats form rows of about eight abreast.

The word around campus is that Omaha University is considering the purchase of additional classroom seats of this type to the tune of \$4,500.00. It is my opinion, as a student who sits in one of those seats, that Omaha University should not buy more of them. My reasons for not wanting the University to purchase more of them are several.

A. Pedestal-type seats are situated so close together that when students are occupying them, it is all but impossible to sit and work comfortably without physically contacting the person sitting next to you. Now, if the person sitting next to me is a pretty, young girl, then for me it is a rather desirable situation. However, she might not enjoy this type of seating arrangement and there again, is an indication that the seats are too close together.

B. Another inhibition I have toward the pedestal seats is that through their very compactness and space saving construction, they allow for a considerably larger number of students in an average size classroom. At first blush, this idea of larger classes in a smaller room appears pragmatic. However, when it is considered that students, from time to time, shuffle papers, adjust their sitting position, sneeze, whisper and perspire, it becomes evident that having a larger number of students in an average classroom just adds to the discomfort. This situation is not intolerable, but it certainly is uncomfortable.

C. Still another reason for my objection to the pedestal-type seats is that they have no facility in their construction for books, notebooks or apparel such as a coat or jacket. What was just mentioned I think is important. Students usually are coming from some other activity, such as the library, another class, the student center, or whatever, and are in most instances carrying these various articles on their person. When they arrive at class, they are faced with no place to put their things except on the floor or in the case of someone being absent, on the seat next to them.

D. One last thought is that of safety. Thinking of the classroom being full, with all the students snugly in their seats, with their individual movable table tops in front of them frightens me just a little. If there happened to be a sudden fire or some other reason for excitedly evacuating the room, I doubt that all students would escape the room uninjured.

Therefore, I urge that Omaha University should reconsider their thoughts of purchasing additional pedestal-type classroom seats and find seats that would be more desirable and still pragmatic.

Larry Schueler

Editor's note: Mr. Schueler's letter was prompted by requests from eight other students who share his feelings about the seats.

## An Answer For Mr. Faiman

Dear Mr. Faiman,

After having read your letter, I feel that as a member of Student Council, I should clarify some of the points you made.

Primarily, you stated that only "those of the 'in-crowd' were on Student Council." Maybe this is a Greek body, but who's fault is that?—You and the rest of the unaffiliated people on campus who don't organize and back a candidate. The Greeks can win any election on the campus because they are organized, have leadership, and have the spirit to win. Let me remind you that the Greeks on campus are definitely in the minority. So, if you're not satisfied with the way the Greeks "run the campus," then organize yourself and the rest of the Independents, and do it yourselves.

Secondly, where did you get the idea that "fraternity and sorority members don't mingle much with those other than their own kind"? As a member of one of those organizations, I can I'm sure, very accurately say that each person in a sorority or fraternity has many friends outside his own organization too numerous to count. Those people, if they are at all interested in the running of the campus, can make sure that his ideas are taken to Student Council. Besides, if you have been reading the Gateway, and have as much knowledge as you think you do about campus activities, you would be fully aware that Student Council meetings are open, and that anyone's opinions can be voiced in them. If the Student Council hasn't been quite so active for the entire student body, they are doing so now, even though it may be a slow process. A prime example of this is the fact that Student Council has offered to subsidize fifty dollars to those unaffiliated people who belong to certain clubs and wish to build a float.

Mr. Faiman, have you ever thought to yourself why you are in the "out-group"?—Be-

cause you want to be there. There are numerous clubs on campus, and if you had any interest in something other than complaining about the bad aspects of OU's campus, you would be a member of one or more of them. In them you would find a certain sense of companionship with those people who have the same interests as you. No, you certainly do not need a fraternity, but something that will make you think of someone or something besides yourself. I'm sure you would get a much greater feeling of satisfaction from that, than you did from writing your letter.

There are enough campus activities for Independents, if they want to attend them. There are five all-school dances, plus different athletic events and special programs. DO YOU SUPPORT THESE?

I hope I have made life on this campus a little clearer as to what it really is. I also hope that your next three years at this University will be happier than your first one apparently has been.

Sincerely,  
Bev Grasso  
Member of Student Council and a Greek

## Home Economics Club To Host Afternoon Tea

The Home Economics Club will hold a mother-daughter tea Sunday. All members and their mothers are invited to attend the affair which will be held from 2 to 4 p.m. in Room 312 of the Milo Bail Student Center.

A fashion show will highlight the afternoon tea. Home Economics students will model clothing they have made this year in sewing classes.

The Committee on Academic Standing denies admission to any suspended student who has been out of school less than two full semesters.

Want another 3 miles to the gallon? Listen to KWOU.

## Library Books Up For Auction

The Gene Eppley Library is currently having a book auction in honor of National Library Week, April 25-May 1.

More than three hundred books, some of which were gifts and duplicates, are on display near the main desk of the library. Students and faculty may place a written bid on a volume or a number of volumes. The books will then be sold to the persons submitting the highest offer. Winning bids will be posted next week.

According to Miss Ellen Lord, head librarian, the purpose of the sale is to stimulate a liter-

ary interest among students in order that they might build their own personal library.

## Denver Meet Wants Entries

Students of Omaha University are eligible to enter the University of Denver's speech contest. All entries must be taped. The prize award for the best entry will be \$50.

Particulars concerning this contest may be obtained from either of the following instructors: Dudley Sauve, Al Longacher or Warren Gore.

## Journalism Students, Alumni Honored At Annual Banquet

Humor and the presentation of awards spiced the 10th annual Journalism Awards Banquet held Monday in dining rooms A and B of the Student Center.

Four current journalism students and three alumni received special awards, and 34 journalism students earned keys for their work in publications.

Debbie Pelowski received the 200 dollar Horace Rosenbloom Memorial Scholarship from the Associated Nebraska Industrial

Dick Smith was presented the journalism department's outstanding student award by College of Applied Arts Dean C. W. Helmstadter. Smith edited the GATEWAY last semester.

President Leland Traywick gave alumni citation awards to Marilou Thibault, a 1964 graduate, for her weekly TV show "Marilou" on WOW-TV. Citations also were given to Warren Francke, a 1960 graduate, for his feature articles in the Sun newspapers and to Bob Morris, 1957 grad, for his editorship of the Wymore Arbor State. This paper is Nebraska's first daily full-size offset newspaper.

Paul V. Peterson, journalism department head, presented a special award to Jeanne and Stan Lipsey in memory of Dave Blacker, publisher of the Sun papers until his recent death, for his "dedicated interest in the University and its journalism program." Lipsey now is publisher.

Smith... "Outstanding"

Editors. The 100 dollar Walter H. Panko Memorial scholarship award went to Loren Schnittgrund. The recipient of the Zeta Tau Alpha award for "outstanding" contributions to OU journalism went to Sheri Hronsek, 1965 TOMAHAWK editor.

Miss Pelowski, Schnittgrund

Peterson also presented keys to students for work on publications.

Bronze first year keys were presented to:

Vicki Adam, Livi Bergman, Diane Barry, Robert Exleßen, Paul Henderson, Diane Johnson, Chat McCarthy, Judy McCoy, Dan Novotny, Deborah Pelowski, Linda Priessman, Rosemary Larry Weskowski, Leona Forsberg, James Riepe, John Weber, James M. Cowman, Monte Angus McCleod Campbell III, Dennis Waterman and Marilyn Miller.

Silver Keys for two years of student publications work were awarded to:

Jo Ann Bishop, Diane Cade, Patricia Jo Matson, Leo Meidlinger, Carol Neumann, Feilhaber, Robert Olson, Dick Smith and Rosalie Chlupacek.

Gold Keys were presented to: Barbara Brown, Ellen Goesser, Sheri Hronsek, Ken McEwen, Roger L. Prai and R. Michael Moran for three years of diligent work on student publications.

The humor of the banquet was added by guest speaker, Robert McMorris, World Herald Columnist. McMorris noted that "personal journalism is a thing of the past." He also stated that there is a place in the journalism world for many talented writers.

McMorris said that he chose journalism because he thought it was a means to an end which eventually would enable him to join the elite and great American novel writers.

## Angel Flight Picnics With ROTC Sunday

Arnold Air Society will honor Angel Flight members with a picnic Sunday at Benson Park. The members of Arnold Air, advanced AFROTC cadets, will provide the food as well as prepare it. Arnold Air has challenged the Angels to a baseball game as part of the afternoon's activities. Entertainment will be provided by Bob Cords and Captain M. E. Ray. Chairman of the 2:00 p.m. function is Clarke Powers.

## Sr. Loans Available For Corps Trainees

College juniors wishing to use the summer before their senior year preparing for post-graduation Peace Corps service now may borrow up to \$600 to help pay their senior year expenses. Loan payment may be deferred until after Peace Corps service has been completed.

Peace Corps Director, Sargent Shriver made the announcement last week. Any further information can be obtained in the Dean of Student Personnel Office, 240 Adm.

The loans are expected to enable more third-year college students to enroll in the Peace Corps Advanced Training Program, a two-phase plan that provides intensive Peace Corps training during the summer months between the junior and senior year, and just after graduation. Many students who have had to work during summer months now may participate in the Peace Corps Advanced Program.

Trainees in this program will begin their training in June. They will receive travel allowances to and from the training center and living allowances while there. Selection for the program is the same as for any Peace Corps applicant. It is based on the candidates background as revealed in the Peace Corps Questionnaire, Placement Test results, and character references.

Evaluation continues during the training program, and final selection is not made until after the second stage. Following the eight week training program, students return to their regular college courses. After graduation they return for eight more weeks of special training. Those who successfully complete the program will then begin work abroad as regular Peace Corps volunteers.

## Official Notices

ALL SENIORS AND GRADUATE STUDENTS WHO ARE CURRENTLY ENROLLED AT OU, AND WHO ARE GOING TO ENROLL IN SUMMER SESSIONS AND GRADUATE DURING THE SUMMER OF 1965 WILL BE PERMITTED TO REGISTER EARLY FOR THE SUMMER SESSIONS.

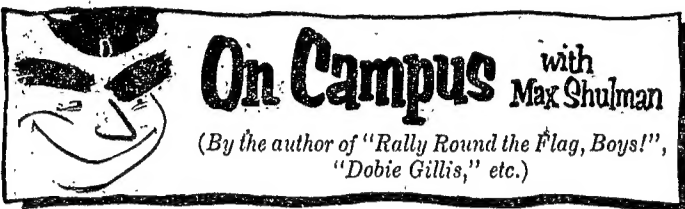

REGISTRATION WILL BE TUESDAY, MAY 25, AT 9 A.M. TO NOON AND 1 P.M. TO 3:30 P.M. AT THE OFFICE OF THE REGISTRAR. TUITION AND ALL FEES WILL BE DUE AND PAYABLE AT THAT TIME. SENIORS MUST SEE THEIR ADVISERS AT THE ADVISERS' CONVENIENCE BETWEEN MAY 19TH AND 25TH.

PETITIONS MUST BE PICKED UP TODAY BY ALL PERSONS PLANNING TO BE CANDIDATES FOR ELECTION TO STUDENT COUNCIL, BOARD OF STUDENT PUBLICATIONS OR MAJIE DAY PRINCESS. THE PETITIONS ARE AVAILABLE IN THE STUDENT ACTIVITIES OFFICE IN THE STUDENT CENTER. THEY ARE DUE IN THE SAME OFFICE MAY 7.

## ALPHA KAPPA DELTA

The final meeting of Alpha Kappa Delta, sociology honorary, for the spring semester will be held next Tuesday, May 4, in Dining Room B in the Milo Bail Student Center.

According to AKD's treasurer, Terry Hays, all members should be present.

## VOYAGE TO THE BOTTOM OF THE BARREL

As everyone knows, thirteen-twelfths of the earth's surface is water. Thus we can see how important it is to know and understand our oceans. Toward this end American colleges last year embarked on a program to increase enrollment in oceanography. I am pleased to report that results were nothing short of spectacular: In one single semester the number of students majoring in oceanography rose by 100%—from one student to two!

But more oceanographers are still needed, and so today this column, normally a vehicle for slapdash jocularity, will instead devote itself to a brief course in oceanography. In view of the solemnity of the subject matter, my sponsors, the Personna Stainless Steel Razor Blade Co., makers of Personna Stainless Steel Razor Blades which give you more luxury shaves than Beep-Beep or any other brand you can name—if, by chance, you don't agree, the makers of Personna Stainless Steel Razor Blades will buy you a pack of whatever brand you think is better—my sponsors, I say, the Personna Stainless Steel Razor Blade Co. will today, because of the solemnity of this column, forego their usual commercial message.

We begin our study of oceans with that ever-popular favorite, the Pacific. Largest of all oceans, the Pacific was discovered by Balboa, a Spanish explorer of great vision. To give you an idea of Balboa's vision, he first saw the Pacific while standing on a peak in Darien, which is in Connecticut.

The Pacific is not only the largest ocean, but the deepest. The

...the Pacific was discovered by Balboa, a Spanish explorer of great vision.

Mindanao Trench, off the Philippine Islands, measures more than 5,000 fathoms in depth. (It should be pointed out here that ocean depths are measured in fathoms—lengths of six feet—after Sir Walter Fathom, a British nobleman of Elizabethan times who, upon his eighteenth birthday, was given a string six feet long. Many young men would have sunk in a funk if all they got for their birthday was a string six feet long, but not Sir Walter! String in hand, he scampered around the entire coast of England measuring seawater until he was arrested for loitering. Incidentally, a passion for measuring seems to have run in the family: Fathom's grandnephew, Sir John Furlong, spent all his waking hours measuring racetracks until Charles II had him beheaded in honor of the opening of the London School of Economics.)

But I digress. Let us, as the poet Masfield says, go down to the sea again. (The sea, incidentally, has ever been a favorite subject for poets and composers. Who does not know and love the many robust sea chanties that have enriched our folk music—songs like "Sailing Through Kansas" and "I'll Swab Your Deck If You'll Swab Mine" and "The Artificial Respiration Polka.")

My own favorite sea chanty goes like this: (I'm sure you all know it. Why don't you sing along as you read?)

O, carry me to the deep blue sea,  
Where I can live with honor,  
And every place I'll shave my face  
With Stainless Steel Personna.

Sing hi, sing ho, sing mal-de-mer,  
Sing hey and nonny-norny,  
Sing Jimmy crack corn and I don't care,  
Sing Stainless Steel Personny.

I'll harpoon whales and jib my sails,  
And read old Joseph Conrad,  
And take my shaves upon the waves,  
With Stainless Steel Personrad.

Sing la, sing lo, sing o-lee-a-lay,  
Sing night and noon and morning,  
Sing salt and spray and curds and whey,  
Sing Stainless Steel Personring.

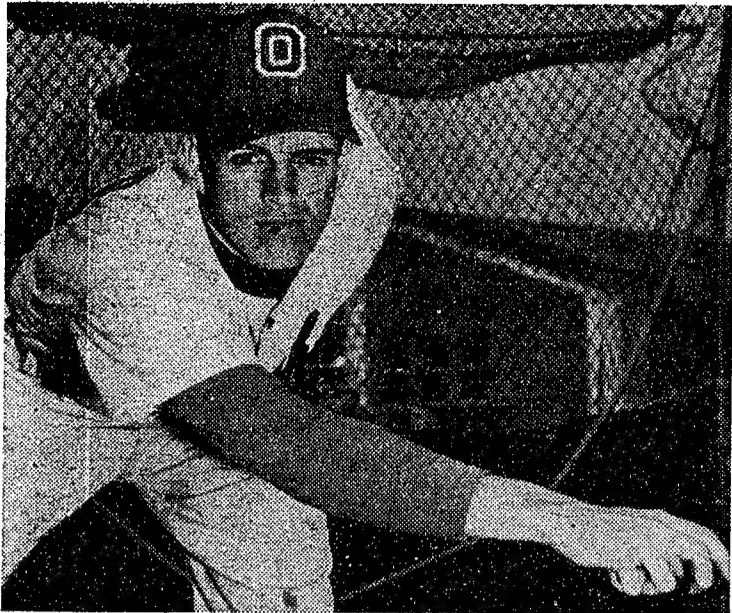

© 1965, Max Shulman

The landlocked makers of Personna® and Personna Injector Blades wish you smooth sailing and smooth shaving—with Personna and Personna's perfect partner: Burma Shave®, regular or menthol. It soaks rings around any other lather!

**Jays Host Monday . . .****Rockhurst, Creighton Offer Stadium Tests For Indian '9'**

OU righty Gary Girouard will face Rockhurst tomorrow at Stadium

By Mike Moran

Rockhurst of Kansas City invades Omaha's Rosenblatt Stadium tomorrow night at 7:30 as the OU baseball team plays the second of three straight games at the municipal plant.

Monday night, Omaha will take on city rival Creighton at Rosenblatt again at 7:30. The two teams met last night but results were not ready for printing.

After the Creighton tilt, the Indians head to Emporia, Kansas, next Thursday, Friday and Saturday for the first CIC baseball tourney. The round robin replaces regular conference play in years past.

Coach Virgil Yelkin has nominated Gary Girouard (2-0) to start on the hill against Rockhurst tomorrow night. The lanky freshman from Offutt AFB has been sharp all year long in relief and starting roles.

**Drake Nipped**

OU rolled to win number nine against two losses last Thursday afternoon with a 4-3 squeaker at Drake. OU ace Larry Krehbiel was called upon in the eighth after Ken McEwen got into trouble and the Bulldogs close at 4-3.

Krehbiel had the bases loaded with one out but got out of it

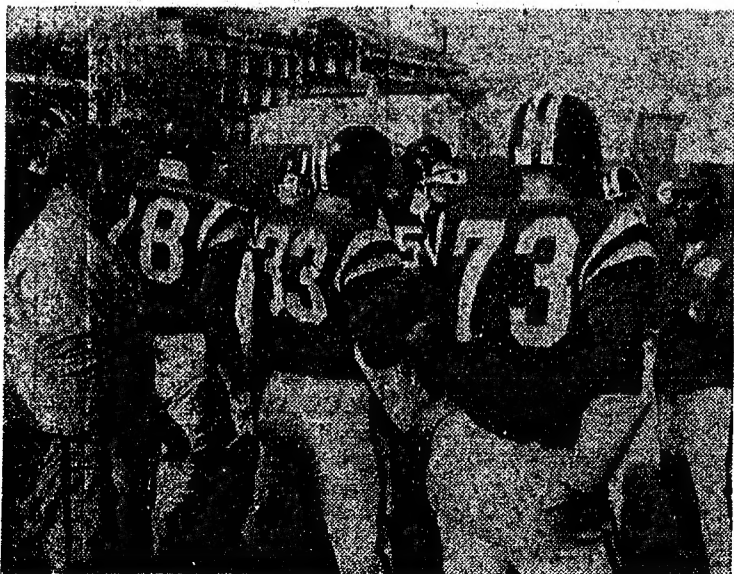

with a strikeout and a pop-fly bunt to third sacker Harold Lenz.

Omaha scored three times in the fifth to take the lead. Lon Bernth singled, stole second and went around on an error. Rich Vacek doubled; Dale Lortz and Rich Lang singled for the two other tallies. The winning run came in the OU eighth when Vacek walked and went to third on an attempted pickoff. Lang's third bingle of the game brought him in.

McEwen got credit for his third straight win as Krehbiel sailed through the ninth without trouble.

**Coaches Talk - - - Gridders Listen**

Omaha University football candidates listen attentively to coaches Al Caniglia and Don Benning. Spring Drills are in their third week and the squad is shaping up faster than anticipated, Caniglia says. The 20 session spring affair will wind up with a Red-White intra-squad scrimmage May 15th in the University Stadium. OU opens the 1965 season at Rosenblatt Stadium against Idaho State at 7:30 on September 18th.

**NOTICE ! ! ! !** Cheer-leading tryouts will be held today at 2:30 p.m. in the OU stadium. Seven co-ed cheerleaders and two alternates will be chosen. Two men cheerleaders also will be selected.

**Gould Top Indian Entrant At Drake**

Omaha University's off and on distance star Ken Gould was the lone OU bright spot at the Drake Relays last Friday and Saturday at Des Moines, Ia.

Gould, running in the open two-mile running event, placed seventh among a large field of experienced track elites. Ken's two-mile time was 9:06.3 which is a new OU record. He established the old record of 9:24.7 last year.

OU's Gary Powers was the only hurdler entered in the hurdle events. He placed third in the preliminaries, thus eliminating him from qualifying for the semi-finals.

Out of a field of 17, OU's two mile relay team placed eighth, a pleasant surprise for track coach Lloyd Cardwell. Their time was 7:52.8 well off the pace they established at the Kansas Relays the preceding week.

Tomorrow the team will compete in the Howard Wood Relays at Sioux Falls, So. Dak. Making the trip with Coach Cardwell will be Power, Ed Neel and Clyde Ketelsen. Also making the trip will be the two-mile sprint medley and mile relay teams. Gould will run in the open mile and Max Kurz will compete in the 100-yd dash.

**Netters Drop Two Lopsided Matches**

Creighton University's tennis team defeated Omaha, 5 to 1, last Thursday.

Omaha's lone victory came in the opening singles match, when Ron Grothe defeated Jim Fogarty, 6-2, 6-8, 6-4. Results.

**Singles**—Ron Grothe, Omaha, defeated Jim Fogarty, 6-2, 6-8, 6-4. Tom Stabile, Creighton, defeated Prentice Besore, 6-2, 1-6, 6-3. John Easley, Creighton, defeated Allan Olson, 6-2, 6-2. Brian Finerty, Creighton, defeated Jerry Gilles, 6-4, 6-2. Manny Fierro, Creighton, defeated Jim Cooper, 6-4, 9-7.

**Doubles**—John Easley-Jay Wu, Creighton, defeated Allan Olson-Mike Kobold, 6-4, 6-2.

**Emporia 7 - Omaha 0**

Emporia State tennis blanked Omaha University, 7 to 0, at Dewey Park last Friday. Results:

**Singles**—Charles Stebbins defeated Ron Grothe, 6-1, 6-3. Bob Bridges defeated Prentice Besore, 6-4, 6-3. Skip Evans defeated Al Olson, 6-0, 6-0. Craig Whitte defeated Jerry Gilles, 6-1, 6-2. Tom Coker defeated Jim Cooper, 6-2, 6-3.

**Doubles**—Stebbins-Coker defeated Grothe-Besore, 6-2, 8-6.

**Delta Sigs Bowl**

Delta Sigma Pi business fraternity will take part in a bowling tournament Saturday at the Ames Bowling Center.

The tournament will consist of fraternity members from the OU, Creighton University and University of Nebraska chapters. The winning chapter will be awarded a traveling trophy.

The winning chapter will be decided by the total score of the individual members bowling for its team. Only the ten highest scores of each team will be used to figure the total points.

The tournament is being organized for the first time in Nebraska. The fraternity plans to make it an annual event.

**From The Bushes**

By Mike Moran

**Devil And The Deep**

Fate has long been known for dealing a low blow or a cruel twist of fate to someone who seemed destined for a fine future or success.

Young Don Moray, such a victim, lies in pain on the fifth floor of Omaha's Immanuel Hospital. Right now he must be wondering just why it happened to him and what did he do to deserve it.

His girl is dead, his friends injured. He has broken legs that will never run again as they did. Don faces months of recovery away from friends and the places he has come to call his own.

All because of a little bit of careless driving by another human being in another car who thought it would probably never happen to him either.

My memories take me back to September of last year when Don's fleet legs outran Morningside defenders for the winning touchdown at Sioux City. The week before, his second quarter tally on a pass had helped upset defending small college champ Northern Illinois at OU.

Don Moray is one of the nicest guys that I have ever had the pleasure of covering from a reporter's standpoint.

He was friendly and open, but most of all he was what a good number of OU athletes aren't . . . and that's courteous to a writer.

When he asked for a picture I had used, he always said "please" and stopped to comment on something I had said or done in my line of work.

Off the field it was the same. Never once did I pass Don Moray without a friendly word from him or a little joke.

For these things I am grateful to Don Moray. Being a writer and trying to do your best isn't always the easiest thing in the world. Neither is being a credit to his school, his coaches and his friends like Don is.

Now it is he who faces the rough road ahead. His future, his education and his health are all in doubt. I can almost feel the hopelessness and the anxiety that Don must feel in that hospital bed.

A person close to him is gone forever. A person who was in the prime of life. He couldn't prevent it, yet he must feel guilty.

Room 531 at Immanuel must be a lonely and frightening place to a 20 year-old boy who has just seen a lot of his life go down the drain.

In two weeks he will be flown to his hometown of Ann Arbor, Michigan, to be hospitalized until he recovers fully and can walk again.

Doctors say that may be a while in coming. He probably won't return to Omaha University again. Who can blame him?

He had a place in life, it seemed . . . Now he has none. This boy is going to need all the help he can get, both mentally and spiritually.

I, for one, intend to help in any way I can. Cards and letters would be a suitable gesture. A visit would be doubly appreciated.

Put yourself in Don Moray's shoes . . . I have and they feel a little uncomfortable.

**Best Wishes . . . .**

In a world of sports that puts emphasis on the football field, the basketball court and the cinder track, a lesser performance might go unnoticed.

Next weekend at Kansas City, Omaha University's Bowling Team will be one of eight squads competing for the NAIA championship.

Last week, the OU keggers swept past defending national champ Kearney State to earn the right to K.C. It's a great tribute to a group of guys who got little publicity this year outside of the campus.

The OU bowlers were third nationally among the eight teams making it to the finals next week.

**Here's More . . .**

Now Fort Hays State has a bone to pick with CIC rival Emporia. Hays track coach Alex Francis says that Emporia coach Fran Welch has backed out of a scheduled dual meet May 14th at Hays. Francis says the agreement was made a year ago and is part of a yearly deal that sees the two teams trade locations for the meet.

The Emporia coach says his team will have to miss too many classes if they come to Hays for the meet. Francis points out that his team missed a few classes last year when they went to Emporia for the meet and besides, the Hornets wouldn't have to leave for Hays until 1:30 in the afternoon.

The two teams have met at this time for the last four years. Emporia has won all four. I see no reason for Emporia's backing out of the meet. Boy, don't we belong to a friendly, charming conference? What's next . . . refusing to play football because OU uses paint on its goal posts? We'll see. . . .

## Indian Keglers Gain NAIA Finals; Intramural Track Meet Slated For May 20-21; F-S Tops Volleyball

Six Omaha University bowlers will represent OU at the 1965 NAIA National Intercollegiate Bowling Championship at Kansas City May 7-8.

Of eight teams to qualify for the NAIA finals, OU qualified fourth. Students selected to go were chosen by a roll-off April 23 at the West Lanes with winners selected on a six game pin total. High game went to Bigley with a 257.

	Total Pins
Bob Bigley	1293
Steve Sheppard	1211
Don Moherg	1139
Charles Will	1102
Dave Richardson	1084
Bill Olson	1054

### Outdoor Track

The Men's Intramural track meet is slated to be held May 20 and 21. Field events are scheduled for 2 p.m. with running events timed to begin at 3:45 p.m.

About the only records that probably will not be in jeopardy are those set by Ken Gould, varsity star, in the mile and 880.

### MEN'S INTRAMURAL OUTDOOR TRACK RECORDS

100—	Craig Hoenshell, Pi Kaps. . . 10.6
High Hurdles—	John Green, Sig Egs. . . 15.7
440—	Loren Fritz, Sig Egs. . . 56.5
Marcus Hudson, Darts. . . 56.5	
Mile Run—	Ken Gould, unaffiliated . . . 4:53.4
880—	Ken Gould, unaffiliated . . . 2:15
220—	Jerry Miller, Sig Egs. . . 24.2
440-Yd. Relay—	Pi Kaps (Marquiss, Gidley, Hoenshell, Sweet) . . . 47.9
880-Yd. Relay—	Darts (Allison, Hogan, Edwards, Hudson) . . . 1:41.8
Mile Relay—	Pi Kaps (Toman, Kersey, Hoenshell, Sweet) . . . 3:57
Broad Jump—	Jim Marquiss, Pi Kaps. . . 20' 3/4"
High Jump—	Jim Marquiss, Pi Kaps. . . 5' 8 1/2"
Discus—	Warren Lenz, Delta Rho. . . 141' 11"
Pole Vault—	Les Metulka, Darts. . . 11'
Shot—	Warren Lenz, "Q" Club. . . 43' 11"
Javelin—	Jim Kettle, Zekes. . . 140'
Triple Jump—	Jim Marquiss, Darts. . . 39' 2"

### Volleyball

The intramural volleyball championship was decided this week resulting in the defeat of the only team to go unbeaten

season long.

The Faculty-Staff (13-3) for the season in league # 1 took the measure of league # 2 champs, Spikers (16-0) in two straight games. After rolling easily over the Spikers in the first game 15-6, Faculty-Staff was hard pressed in the second game as both teams played on nearly equal terms. However, the Faculty-Staff managed to eke out a close 17-15 victory in the close fought contest to sweep both games and the championship.

### Tennis

Winners of the Intramural Tennis Tournament will be decided soon. First round matches are scheduled to be completed by May 12 and the second round by May 19.

According to Athletic Intramural Director Bert Kurth, it is up to the players to get their matches in.

### SINGLES

L. Dyer vs. C. Perrigo	
L. Grau vs. F. Hienish	
W. Miller vs. G. Grau	
H. Schultz vs. R. Nabb	
MEN'S DOUBLES	
L. Dyer-B. Miller vs. G. Grau-L. Grau	
S. Mathews-F. Hienish vs. C. Perrigo-R. Nabb	

### Softball

With nearly one-third of the young intramural softball season gone, the TKE's in league # 1 have jumped out to a slight lead.

In league # 2, three teams are tied for first with one victory apiece. The only team that appears to be already out are the Graduates, who have absorbed a thumping three losses.

The Rebels in league # 3 got the season off to a good start with a pair of victories to lead their league.

INTRAMURAL SOFTBALL STANDINGS			
League No. 1	W.	L.	
1 TKE	2	0	
2 Pi Kaps	1	1	
3 Lambda Chi	0	1	
4 Theta Chi	0	1	
5 Sig Egs	0	2	
League No. 2			
1 Animals	1	0	
2 Flyers	1	0	
3 Zekes	1	0	
4 Bad Guys	0	0	
5 Graduates	0	3	
League No. 3			
1 Rebels	2	0	
2 The Team	1	0	
3 Satellites	1	1	
4 Lit Pikes	0	1	
5 Delta Sigs	0	2	

## Golfers Split Two Matches

Omaha 12 1/2 - Emporia 2 1/2

Emporia, Kans.—Bill Hoffman and James Nicholson each shot 78 to pace Omaha U's golf team to a 12 1/2-to-2 1/2 victory over Emporia State last Thursday. Results:

Bill Hoffman (78), Omaha, defeated Rich Pearson (81), 3-0. James Nicholson (78), Omaha, defeated Rich Hinchaw (83), 2-1. James Thompson (81), Omaha, tied Terry Williams (81), 1 1/2-1 1/2. Paul Anderson (80), Omaha, defeated Ed Hammond (90), 3-0. Ken Seddon (79), Omaha, defeated Jerry Tetley (87), 3-0.

S.D.U. 10 1/2 - Omaha 8 1/2 - Morningside 6 1/2

South Dakota golfers won a triangular at Miracle Hill Tuesday. They defeated Omaha University, 10 1/2 to 4 1/2, and Morningside, 12 1/2 to 2 1/2. The Indians bested Morningside, 8 1/2 to 6 1/2.

Alex Kozos and Bob Mueller of the Coyotes shared medalist honors with 76. Results:

Alex Kozos (76), S. D., defeated Bill Hoffman (81), Omaha, and Max Broderick (81), Morningside (81), Bob Mueller (76), S. D., defeated Jon Dannenburg (83), Morningside, and Jim Nicholson (90), Omaha. Jim Thompson (77), Omaha, defeated Danny Dobson (85), S. D., and Don Schult (85), Morningside. Dave Mitchell (80), S. D., and Russ Jaffries (80), Morningside, Steve Holdrege (81), S. D., defeated Ken Seddon (85), Omaha, and Ken Tilston (88), Morningside.

## Vaulter Grignon Could Use Some Omaha U Rivalry

Grignon... a plugger by Rudy Smith

Lack of ample practice time, a part-time job, being away from home, and as usual, studies, hasn't discouraged Albert S. Grignon from being one of mainstays in the field events for Omaha track coach Lloyd Cardwell.

Al is an 18 year old pole-vaulter from Hackensack, N. J., which is 20 miles from Morristown, N. J., where OU athletes such as Jimmy Jones, Dennis Ondilla, Sam Singleton and a few others make their homes.

### C. P. A. Ahead?

Albert is a second semester freshman and plans to major in business with hopes of becoming a Certified Public Accountant.

He enjoys all types of music, sports and of course — girls, who have to take a back seat to his studies.

Grignon has placed in nearly every track meet in which he participated. His best height in competitive college track thus far has been 11'4", his career best in High School was 11'6".

While in high school Al lettered two years in both track and wrestling and one year in football.

Albert arrived at the University with the help of two scholarships, one of which came from his church.

Coach Cardwell described Albert as a good pole-vaulter with good potential if he had another vaulter to work with and assist him.

## PLAYER PROFILES

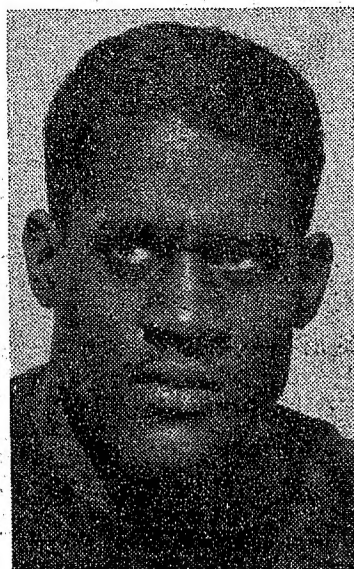

Tom Wolff

Senior Tom Wolff looked like a cinch starter at fullback last season until injuries robbed him of the spot after a good start against Idaho State. In fact, Wolff seems to have earned the "hard luck" award at OU along with three letters.

At 6-2 and 215 pounds, Tom can run well, but has proved his value at the defensive corner spot as well. He was an end as a soph, a fullback last year and was considered as a center candidate this term.

Wolff has looked good so far this spring and is presently running in the number one slot again. Sentiment, if it can be valued in football, is with Tom this year.

Whether it be at fullback or some other spot, his presence in the lineup is definitely an asset.

Bill Dodd

One of the most devastating runners to hit the OU campus in years is Wyoming transfer Bill Dodd. The 212 pounder was Wyoming's regular fullback last year until personal reasons prompted a switch to Omaha.

The former Omaha Central and Shrine All-Star can block as well as lug the ball. With a wealth of good fullbacks to compete with this fall, Dodd will have his work cut out for him.

However, his exceptionally hard running makes him seem like a sure starter at a running back spot. He is currently nursing a leg injury that has somewhat curtailed his action this spring. When he regains his form, opponents had better look out.

### 1965 Omaha U Fullback Roster

*** Tom Wolff	6-2	215	Sr.	Omaha (Westside)
x Bill Dodd	6-0	212	Soph.	Omaha (Central)
Doug Young	5-10	210	Soph.	Pender, Nebr.
** Reed Shipman	6-1	228	Sr.	Peoria, Ill.
* transfer from Wyoming				
* denotes letters earned				

Doug Young

Pender native Doug Young is a returning squadman who also has been bitten with the injury bug. The 210 pound soph has shown good running ability this spring and moreover, his work at the defensive corner has coaches impressed also.

His injured leg seems to be healing well and keeping him out of the lineup next autumn seems to be a tough task for his competitors.

He was a placekicking artist and punter in high school and that specialty may make him doubly valuable to Coach Al Caniglia and his 1965 Indian football team.

Doug is one of the most pleasant fellows on the squad and his desire will be a big factor in making his spot.

Reed Shipman

228 pound Reed Shipman is returning to a spot he tried once before as a college freshman at the University of Illinois four years ago. Shipman was a high school tackle in Peoria but tried fullback at Illinois when coaches noted an acute shortage on the Illini varsity.

He came to OU in 1963 as a junior college transfer and moved right into the starting lineup as a tackle. However, coaches decided to shift his bulk to center last year and he became a standout.

The great thing as far as Reed is concerned is that if he fails as a fullback, he will be more than welcome at a number of other spots. He has excellent pro scouting reports, too.

## Omaha Spring Grid Roster

## A Thing Of Beauty Is A Joy For A Few Months, Anyway

Where has the framed "Chicago Skyline" gone?

The 18 by 54 inch oil painting by Joe Rewolinski was stolen over the Easter vacation from the faculty lounge on the second floor of the Milo Bail Student Center.

The theft of the uninsured "Skyline" painting was reported to the police, but, as yet, no

leads have been uncovered.

This is the second art theft from the Student Center since it was completed in 1961. The other painting was stolen two years ago. It was valued at 300 hundred dollars and has not been recovered.

Like folk music? KWOU 1:00 p.m. on Wednesdays.

## Christiansen To Leave Post

Omaha University's Business Manager of Student Activities has resigned effective June 1, 1965 and has accepted the position of Development Director of Brownell-Talbot Private School.

Ivan Christiansen will be in charge of Administration which is a newly - created position. This position was formerly held by the Headmaster, Mr. Christiansen will be in charge of student recruiting and the staff. The job will also include the business operations of the school — such as accounting and purchasing.

## Recital Slated; Public Invited

Miss Katherine Bacon of the Julliard School of Music will give a piano recital in the Conference Center Auditorium Sunday at 7:30 p.m.

Miss Bacon, who was born in Chesterfield, England, gave her first public performance at the age of seven. Since that time, her engagements have included guest appearances with the New York Philharmonic and other orchestras, as well as numerous recitals and appearances with prominent chamber music organizations. She has been a faculty member of the Julliard School of Music for more than 20 years.

The concert Sunday, which is open to the public at no charge, will feature: "Toccata in D Major" by Bach and "Scherzo in B-flat Minor, Opus 31" by Chopin along with other works by Beethoven, Prokofiev, Rachmaninoff and Brahms.

Beginning May 8 at 9:30 a.m. Miss Bacon is presiding over a two-day piano workshop for students and teachers in the Conference Center Auditorium. Registration forms may be obtained from Dr. James Peterson, head of the music department.

## Geographers To Meet May 7

Gamma Theta Upsilon, geography honorary, invites interested OU students and the public to its program on May 7th at 4:45 p.m. in the Milo Bail Student Center. The program will consist of reports on the national meeting of the Association of American Geographers held at Columbus, O., on April 18-22 by Dr. Gordon Schilz, Dr. P. E. Vogel and Nicholas Bariss of OU's department of geography.

Two films will also be presented: "Libya" and "Adventures in Mapping". The latter film covers the field operations of the Inter-American Geodic Survey in Guatemala, Ecuador, Bolivia, and Paraguay. Narrator for the films will be Maj. H. (Hank) Leyton, Corps of Engineers.

Major Leyton is a bootstrapper majoring in geography. He has seen service in Korea, North Africa, the Middle East and Latin America. During his Latin American assignment he was loaned to the Von Hagens "Highway of the Sun Expedition" mapping the Inca road system in Ecuador and Peru.

## Dr. Spagnuolo Speaks To Spanish Club May 4

The Spanish Club (El Club Espanol) will meet Sunday, May 4, at 4109 No. 54th Street at 3:30 p.m. Discussion will be led by the guest speaker, Dr. Sebastian Spagnuolo.

## Milton On The Loose

## Naval Game Offered For The Fun Finders

By  
J. C. Milton

What are we doing wasting our time in college?

I mean, what are we doing spending six or seven years trying to earn a degree when there are easier ways to make a living? For example, all one has to do is think up a new parlor game. Let's not get the wrong idea—I am not referring to the type of parlor game most college students are familiar with—I mean something like Monopoly.

I know this fellow who is currently working on a parlor game which is called Skuttlebutt. It's a naval game, but again, let's not get the wrong idea.

Skuttlebutt employs as many players who are dumb enough to play. To start the game, everybody boxes their compasses and the first one who breaks his gets to roll the dice. Then he moves his little model of a ship, or what-have-you, along the "squares."

Now, let's say he lands on the "square" marked "grog." That means that the host has to break out all the booze he has in the house and everybody gets drunk. (Such comments as: "Put a lemon twist in my whiskey sour so I won't get the rickets," adds a sorely needed nautical atmosphere to the game.)

Back And Forth In A Bathtub

Now say another player lands on the "kneehaul square." That means that the other players get to drag him head down, back and forth, in a bathtub full of water until he either passes out or doesn't much care for the game of Skuttlebutt anymore. And if a person lands on the "walk the plank square" he gets blindfolded and thrown down the basement stairs much to the delight of the other players.

Then there are a couple of squares marked "shore leave," which will enable those players who don't particularly cotton to the game to sit a few turns out. And if a player lands on the "swab the deck square," he has to stay around after the game

and clean up the mess the others have made.

The best "square" to land on however is "MUTINY." With this one, the guests take over the whole household and ravish anything and everything worth ravishing. Anything they can carry on their backs is theirs for the taking, and the host usually ends up being thrown into the backyard which has been renamed "Davy Jones' Locker."

The game of Skuttlebutt ends if and when the host lands on the "square" called "nine bells." Therefore, the object of the game is for the host to hit "nine bells" before the other players hit "grog" and "MUTINY." The other "squares" are just thrown in to make the game more interesting.

### Damage Suits

I think the fellow who thought this game up has got a fortune on his hands—possibly in damage suits. No, I'm just kidding. This game should appeal to the more red blooded Americans and, in time, may come to replace television as the country's greatest waste of time.

I thought I could get in on some of this easy money by inventing a game called "College Fun-Time." In mine, every third "square" was marked "get drunk," "skip class," or "chase women." However, my game was turned down for the simple reason that kids could get the same thrills merely by enrolling in some colleges.

## J. Goodmanson Has Baby Girl

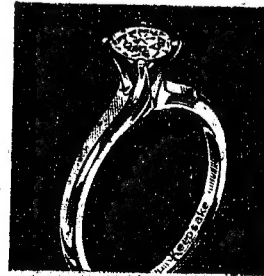

The GATEWAY has received word of the birth of a daughter to a former faculty member.

Jane Andersen Goodmanson, assistant professor of art until last year, gave birth in Chicago, Ill. on Palm Sunday, April 11, 1965.

### The Accident In Room 259

Room 259 in the Applied Arts Building is the scene of an accident—the accident being those pedestal-mounted seats that make even the dauntless, interested student wince for lack of operating space.

Since I am currently attending a class in this over-stuffed room, I was doubly surprised to read in the April 16th issue of the World-Herald that "OU also will spend 45 hundred dollars to put in more pedestal-mounted seats . . ." which, it said, "have proven successful." Successful? Says who?

Professors who have conducted classes in the room with the "compact" seats have taken student surveys to get their opinion of this innovation. Dr. Willis Rokes of the College of Business Administration took a survey last fall. Eleven students in the class liked the seats, with reservations. Twenty-three students disliked them, vehemently.

Last Monday, I received a survey taken that day by a thoughtful prof. with whom I had discussed the matter. The results, similar to Dr. Rokes', were not surprising to me. The students disliked: seats too close together; closeness makes room stuffy; rows are too close together, no leg room; no room to put books; no place to put coats; late comers cause confusion trying to squeeze through to seats; closeness makes it hard to concentrate on lecture. They liked: the shape of the seats and their color.

Some professors with whom I have discussed this seating made these comments: "I don't like the seats. It's almost impossible to give honest examinations under these circumstances." "I can't be seen by the students in the back of the room. They can't even see the black board very well." "The seats make it hard for the students to concentrate on my lectures." "I wish there was an elevated podium in the front of the room. I like to see all the students to whom I'm lecturing."

These comments make a skeptic out of me. It doesn't sound like the people who have actually used these seats have really found them to be "successful". In fact, I've heard them called a "relic" left over from the Spanish Inquisition.

I realize the necessity of making the best use of all available classroom space. And I am not implying that all forms of pedestal-mounted seating do not work. But, I do feel that more consideration should be given to reconciling this method of seating with the needs of the students and the professors who use them.

### Aborted Conspiracy

"What do you mean, they're going to move the publications office?" This was my first reaction when I read in the World-Herald that some new faculty offices would be built in our pubs office.

I was even more alarmed to learn that our Journalism Department Head, Mr. Paul V. Peterson, hadn't even been informed about the conspiracy. But, when he did find out . . . well, things were straightened out immediately.

Director of Campus Planning and Development Clarence Lefler said that the "item in the paper was a bit misleading," after attention had been brought to the matter. He went on to say that the necessary fund requests for the move appeared on his yearly budget "so that if and when the move was approved the money would be available." He added that meetings with the parties involved in the move were not scheduled before the budget expenditures were approved due to the fact that he had been occupied with preparation of Federal documents.

This incident may have, if it does not already have, far reaching ramifications. This incident smacks of some administrative weaknesses which need immediate attention for the sake of the University. And, I have a good idea that something is already being done about it.

Publications here at the University of Omaha are not an extra curricular activity. The actual production of the Gateway is the responsibility of the student editor and his student staff. Its production is an integral part of OU's journalism program and we use the special facilities afforded us by the publication office with which to learn.

I have been told that our present office has a value of somewhere between \$45,000 and \$50,000, complete with its special photo dark rooms, special electrical outlets and other equipment.

But the serious problem emerging from all this is the lack of administrative co-operation and co-ordination. I understand that the Committee of the Future was split up into five subcommittees last week end and that one committee which will investigate the problem of administration procedures has, in fact, already made some proposals to cope with the matter.

Well, the publications office will probably not be moved for a while and so I'll still have a place where I can pound out my humble column. But, let us hope that when the time does come to make some "creative" changes in utilizing all classroom space to the utmost, that it will be accomplished through the proper administrative channels with the best interests of OU in mind.

## Civil Engineers To Affiliate

The largest national engineering organization will present a charter next week installing a student chapter on campus. The organization: The American Society of Civil Engineers.

The presentation will be made at 7 p.m. Tuesday, May 7, in room 312, Student Center.

## Alumni To Hear Traywick

President Leland Traywick will address the Omaha University Alumni Board at a meeting of the organization next Monday evening, May 3rd. Traywick will approach the board with questions as to the future of the university, according to Alumni Executive Secretary Warren Wittekind. The group is headed by Gordon Severa, a 1951 OU graduate.

## Traywick Attends Area Church Meet

Omaha University president Dr. Leland Traywick was among the nearly one thousand guests attending a reception Sunday afternoon for Rev. E. S. Foust, the newly elected president of the Omaha Area Council of Churches.

The affair was held at St. John's A.M.E. Church, Twenty-second and Willis Avenue. The Rev. Mr. Foust is the pastor of the church and the first Negro to be elected president of the Council in the group's 40 year history.

Traywick and Foust . . . meet at reception.

## 8 Sociologists Of OU's Dept. Hear Papers

The Midwest Sociological Society convened in Minneapolis despite flood waters with approximately 700 people present.

Attending the event April 22, 23 and 24 were sociology faculty members Mr. John Ballweg, Dr. George Helling, Dr. V. J. Kroeger and Professor Gaylon Kuchel. Graduate students also making the trek were Nathan Chatman, Mrs. Marilyn Heidreich, Terry Herb and David Oliver.

"The convention meets annually to hear papers of various Ph.D's from different schools in the society of human behavior," according to Oliver.

"Also up-to-date textbooks are displayed which can be bought for classroom work," he continued.

Minnesota congressman Don Fraser was guest speaker at the banquet during the three day meeting.

## Omaha Tech Institute Tuition Reasonable

"The Technical Institute at Omaha University compares quite reasonably with others in the Midwest," said Edwin Kinney, head of the institute.

In regard to the persistent problem of tuition, the OU student fares very well. The only other publicly run institute in this area is Iowa State. Tuition runs about \$300 a year there. Also there are very expensive lab use fees at Iowa State.

No Lab Fees  
OU's tuition for residents amounts to \$500 a year. More important is the fact that OU has no lab fees for its technical institute. "However there will be a fee soon," believes Kinney.

But OU is "very reasonable" when compared to such privately-endowed institutions as Case Institute of Technology at Cleveland, O. Tuition at Case amounts to 17 hundred dollars a year.

In the two-year program at OU a student would pay about one thousand dollars for 2,000 "contact" hours. This is the time spent in class and in lab. An OU student would therefore pay 50 cents a contact hour. At Case, the same hour would cost about four times as much.

The four options that the OU institute will offer this fall are also comparable to other institutes. Iowa State also offers four options.

High Correlation  
The correlation between the number of students and faculty is quite high at OU. There is one faculty member in the institute for every six students. At Iowa State the ratio is one to 16.

"OU will follow Iowa State fairly well in attendance in the next few years," Kinney said.

He also commented that if the Technical Institute didn't exist at Omaha University, people in the Omaha area would have to go elsewhere and pay much more for a comparable education.

## Traywick To Talk \$ From NSF For Teachers

President Leland Traywick will address a meeting of student officers Thursday, May 6, at 3:30 p.m. in the Milo Ball Student Center. The event is billed as a "Prexy Party."

Dr. Traywick's topic will be "The Students and OU," with the president putting special emphasis on what today's students can do in shaping the future of the University.

According to Student Council President Rich Tompsett, some 300 invitations were sent out to student officers. Anyone that was missed is cordially invited to attend, however.

This will be the second meeting of this type. The president addressed over 150 students earlier this semester explaining the orderly processes of the University.

## Indian Artist Visits Campus

"Buddhist Sculpture in India," was the title of a lecture given to Omaha University's art majors last Tuesday at 10:30 a.m. in the Conference Center.

P. R. Ramachandra Rao, author of The Art of Nagarjuna-konda and Modern Indian Painting, is currently touring the United States giving lectures at various galleries and universities.

In Tuesday's discussion, Rao dwelt on the development of stupas and their gradual evolution into the Indian temples. Rao also went into detail on the decorative ornamentation involved within the temples.

He is a lawyer and constitutional consultant for the Indian government at the Supreme Court in India. He visited Joslyn Museum before he left for Kansas City and his next lecture.

The University of Omaha has received two grants from the National Science Foundation. One grant, which will support the Academic Year Institute, is in the amount of \$71,000. The grant will enable 10 high school teachers to attend as full-time students, with the aim of receiving enough credits to obtain a Masters degree at the end of the school year.

The second NSF grant will support an In-Service Institute for 65 high school teachers. They will receive tuition, book and travel allowances. The teachers will attend school at night while still teaching during the day. Each will take one course per semester in the various science areas.

The biology course to be taught is the Biological Science Curriculum Studies (BSCS). This course is designed to teach a basic knowledge of the new biology for high school students. The amount of the In-Service grant is \$20,000 a year for three years.

## Retailer Luncheon Host To Traywick

Holders of retail management scholarships and other select retail students were guests of the Associated Retailers of Omaha for lunch at the Diplomat Motor Inn.

The purpose of this engagement was to provide students and retailers with an opportunity to get better acquainted. President Leland Traywick was the guest speaker. President Traywick pointed out the mutual benefit that can come from a co-operative effort between retailers and the University.

## Volunteer Bureau Wants Student Workers; Jobs Offer Experience In College Major

The Volunteer Bureau of Omaha's annual worker recruitment drive is now in progress, according to Mrs. John Clow, chairman of the Omaha University Branch of the Bureau.

The drive which will continue until May 14th, is seeking the help of university students to fill some of the special requests from Omaha's health, welfare, recreation and education agencies.

### Volunteers Needed

The need for volunteers is constant, Mrs. Clow said. The Volunteer Bureau must answer calls from United Community Services agencies and also be ready to serve any institution in the city which focuses attention on health, welfare, recreation and education.

The Bureau has found that some of its best response in the volunteer program has come from Omaha students. Students have many skills, abilities and knowledge which could be invaluable to others, according to Mrs. Clow.

Students may be able to do volunteer work related to their academic major.

### Special Job

A special volunteer job is available this summer, which could be a help to those plan-

ning teaching careers, according to Mrs. Clow. Operation Head Start, a federally financed pre-school program needs volunteer assistance to help the qualified teachers handle the five-year-old students. The program is expected to run June 14th to August 14th.

Interested persons could volunteer four hours of their time for one to five days a week for the duration of the summer program.

## TKE Dave Richardson Reigns As 'Zeta Honey'

Zeta Honey and outstanding members of Zeta Tau Alpha were honored at the sorority's dinner dance April 24.

Dave Richardson of Tau Kappa Epsilon fraternity was named Zeta Honey. He was elected by a vote of sorority members for the outstanding support he has given the chapter during the past three years.

### Outstanding Zetas

Zeta's outstanding senior award was presented to Jan Thompson, past president of the chapter. Barbara Keast was presented a plaque for her service to the University as well as to the sorority.

A plaque was awarded to Jacquie Newcomer who was elected outstanding junior.

The dinner dance was held at Kiewit Plaza for sorority members and their dates. Rain coats were given as dance favors to escorts.

## Marilou Thibault Talks Before Nebraska Zetas

Zeta Tau Alpha State Day will be held in the Omaha University Ballroom Saturday beginning at 10 a.m.

Sorority members from the Nebraska University chapter and OU will attend. Marilou Thibault, 1964 graduate of OU and Zeta alum, will be guest speaker.

## Orchasis Will Present 'An Evening Of Dance'

"An Evening Of Dance" will be presented May 7th by Orchasis members. The annual concert is made up of dances choreographed and danced by members of the national dance honorary. Admission is free.

## Delta Rho Title Given To McCoy

The first Grand Duchess of Delta Rho Gamma was crowned at the fraternity's all-Greek dance April 23.

Grand Duchess is Judy McCoy, a 21 year old senior majoring in elementary education. Judy is affiliated with Zeta Tau Alpha sorority, Angel's

Miss McCoy Flight, Orchasis dance honorary and is a cheerleader. An all-Greek vote placed her in the spotlight of Duchess Friday night.

Other candidates for the title were Sharon Donnermeyer, Alpha Xi Delta; Ruth Hellegso, Sigma Kappa and Merrilyn Theiler, Chi Omega.

## WRA Hosts Play Day For Area High Schools

Over 150 girls from Omaha area high schools are expected at the Women's Recreation Association's High School Play Day Saturday. The play day will begin at 9 a.m. and last through the afternoon.

Individual sports will be offered during the morning in the Women's P.E. Hut. Orchasis, the modern dance honorary, will offer a presentation during the lunch break. Track and field events will follow the sack lunch and presentations of ribbons will conclude the day.

WRA will hold softball games May 4 at 3:30 p.m. in the Pep Bowl. Teams will be selected according to how many people attend. Equipment will be furnished. If the games are a success, another softball meet will be arranged, probably for the next week.

## Drill Team At Boulder, Competing For Honors

Sabres, the AFROT drill team, left today to compete in an invitational drill meet at Boulder, Colo. This is the first time the OU team will perform at this meet.

Cadet Colonel William P. Applegate will direct the team. Accompanying the team are Captain M. E. Ray and S/Sgt. R. F. Hartford.

Other schools competing are Colorado State College; Colorado State University; University of Colorado; University of Wyoming and the University of Utah.

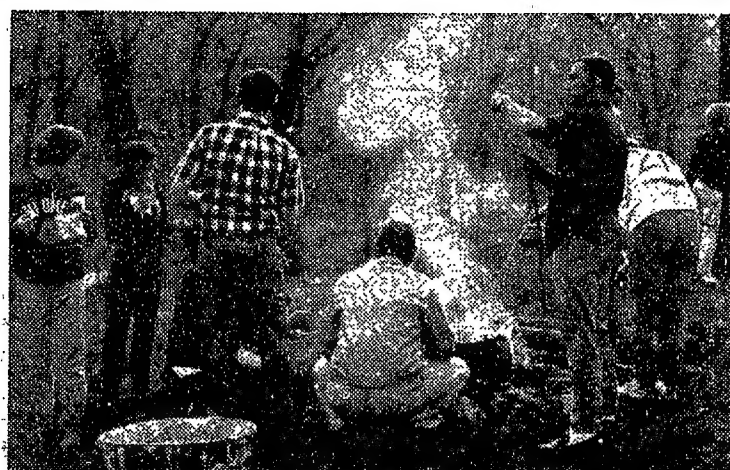

Trophies and medals will be presented to the teams who place in performance.

## Sigma Kappa's Seniors To Be Honored Sunday

The senior members of Sigma Kappa sorority will be honored at a breakfast Sunday.

The annual event will be held at 10 a.m. at the Schimmel Inn.

University of Omaha indoor trackmen broke five varsity indoor records and tied another during the 1965 season.

Greeks help clean up Camp Conota.

## YMCA's Conota Scenery Gets Revamp As Busy Beaver Greeks Toil At Camp

The 1965 Greek Week project has finally been completed. Weather conditions prevented the Greeks from doing their yearly service project when it was originally planned. But on Tuesday and Wednesday of this week, the Greeks were able to migrate to Camp Conota to

complete the work.

The project consisted of preparing the YMCA camp for summer use. The camp is located near Bellevue. Buses were supplied to ease the transportation problem. Each day's work was climaxed by a wiener roast and campfire singing.

## Saturday Migration Set For Sorority 'Owl Hoot'

Chi Omega Sorority will have an Owl Hoot this week-end when chapter members visit other Chi Omegas at Nebraska University in Lincoln. The OU Chi Omegas will drive to Lincoln Saturday morning. They will spend the afternoon touring the campus and getting settled at the Chi Omega house, where they will spend the night.

That evening a night of revelry will be held. Owls that glow in the dark will be placed in each window of the house to denote the Owl Hoot.

The chapter will return to Omaha Sunday in time to attend its Mother-Daughter banquet. The banquet will be held this year at the Fireside Restaurant at 4:30 p.m.

Phyllis Faasse will present a program on Mother's Day at the banquet. She is in charge of plans for the event, working with the help of the Mother's Club.

## Newmanites To Induct Newly Elected Officers

Induction of Newman Club officers will be held Sunday, May 2, following the 9:30 a.m. Mass at St. Margaret Mary.

The officers for the coming year are John Aresta, president; Mike Baylor, vice-president; Ginny Werner, corresponding secretary; Judy Wilson, recording secretary and Tom Heenan, treasurer.

The club will also have a Hawaiian Party tonight at George Werner's, from 8 p.m. to midnight. Members should meet in St. Margaret Mary's parking lot at 7:30 a.m.

### Liberal Arts

All Liberal Arts freshmen are reminded to see their counselors by May 5.

KWOU has the latest in music, weather and campus news.

## Frosh Honorary Takes 16; Rewards Scholars

Initiation of new members of Alpha Lambda Delta, freshman women's honorary, was held last night.

New members of the group are Patricia Abel, Janet Archer, Renda Burtelson, Diane Halperin, Judith Hoevet, Marjorie Holmquist, Carol Hutzell, Diane Jorgenson, Marsha Mefford, Terrie Rachquist, Virginia Todd, Janet Voelte, Noel Weimmer, Brenda Williams, Carolyn Williams and Ellen Zelinsky.

A banquet in the Milo Bail Student Center followed the ceremony. Miss Virginia Frank, English instructor at OU, was the guest speaker.

Cynthia McMillan received the Senior Book Award for maintaining the highest average during her four years. Cynthia has a 3.98 accumulative. She was also awarded a Senior Certificate for maintaining a 3.5 average, the requirement for membership in the honorary.

Others receiving Senior Certificates were Deanne Brezacek, Judy Eichhorn Gilbert, Sheri Hronek, La Donna Johnson, Janet Kroeger, Susan Krogh, Ruth Meyers and Judy Williams.
